ACTIVITY-BASED LEARNING CONSOLIDATED REPORT

Three Website Case Studies

Student Name	Sachin Kumar
Roll Number	26001470
Branch	CSD
Section	2

Selected Case Studies

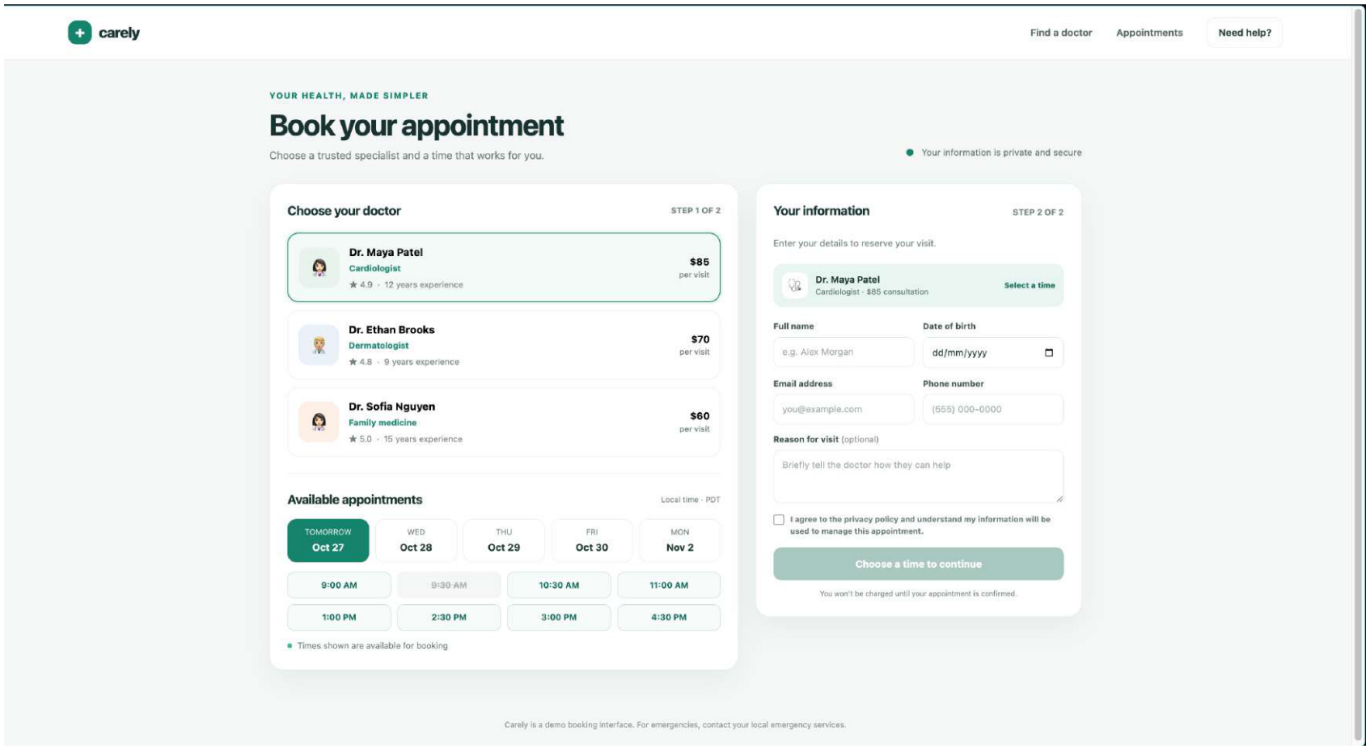

- Doctor Appointment Booking Interface
- Real Estate Website
- Restaurant and Cafe Website

This report includes screenshots of the completed webpage outputs supplied for the three case studies.

Case Study 1: Doctor Appointment Booking Interface

Overview: A booking interface that lets visitors review doctor profiles, choose an available appointment, and enter patient information.

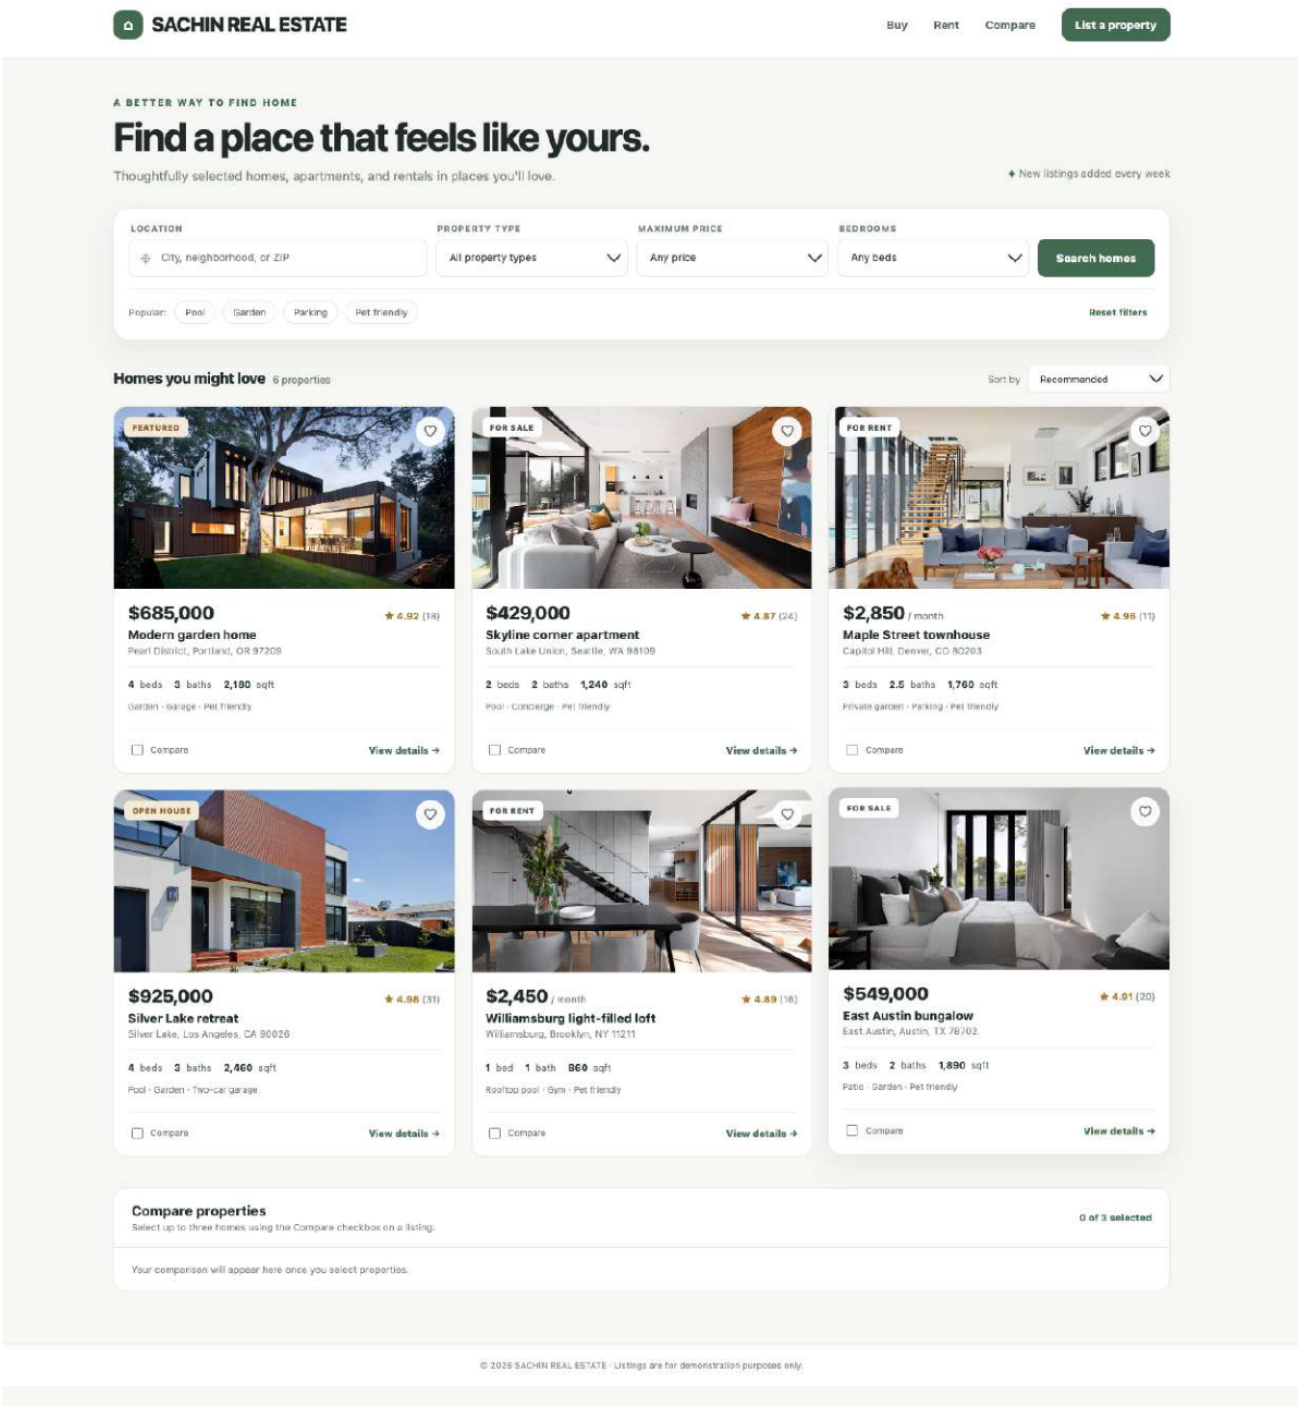

Webpage Output Screenshot

Case Study 2: Real Estate Website

Overview: A property listing website that presents homes with images, prices, locations, and key property details.

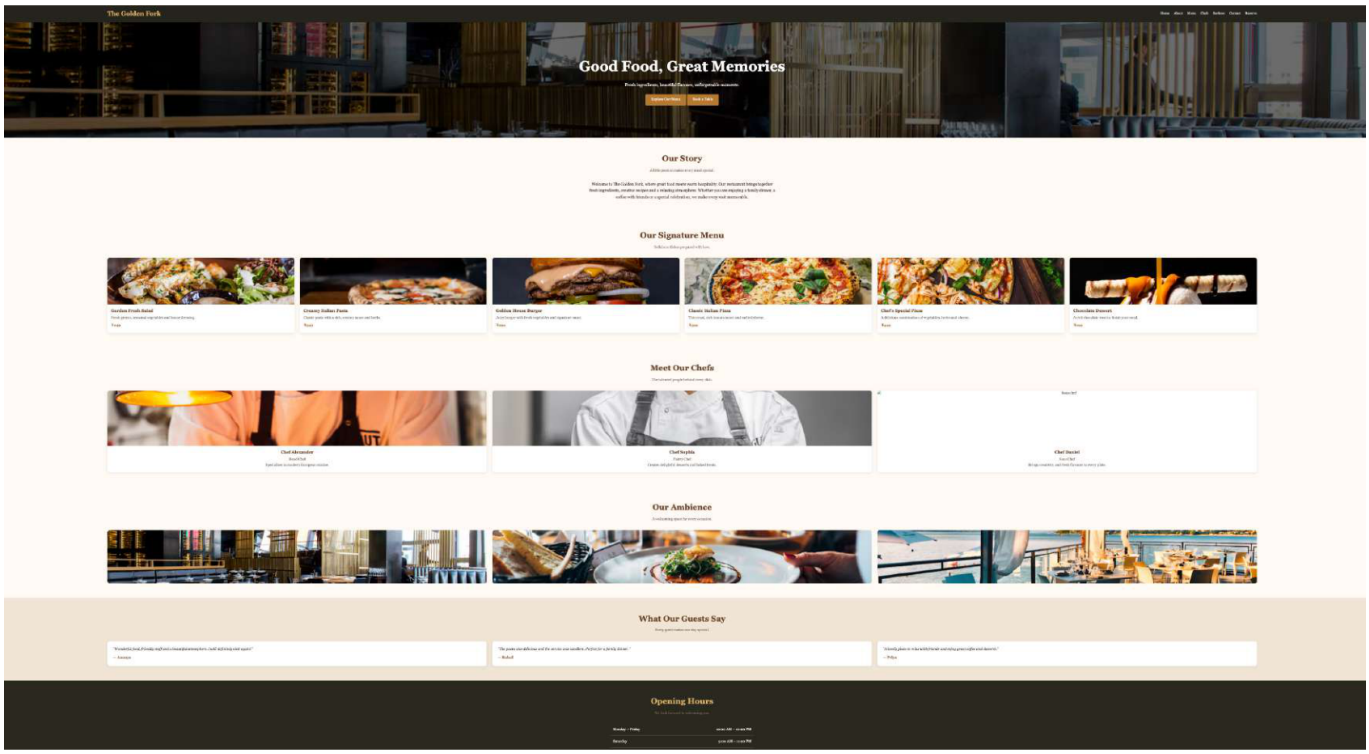

Webpage Output Screenshot

Case Study 3: Restaurant and Cafe Website

Overview: A restaurant and cafe website showcasing menu items, chef profiles, ambience, customer testimonials, and opening hours.

Webpage Output Screenshot

Conclusion

The three webpages demonstrate interface design for healthcare appointments, real estate property discovery, and restaurant/cafe information and reservations. The report includes the actual output screenshots provided for each case study.
